SKILLS

- JavaScript (2+ years)
- React JS + Redux, jQuery
- HTML5, CSS3 (SASS), CSS GRID
- Bootstrap, Materialize
- Ajax (API) calls
- Git, Github
- Adobe Photoshop
- Adobe Illustrator

EDUCATION

BACHELOR OF TECHNOLOGY

Odesa State Ecological University, Ukraine (until I could finish the 4th year at the university)

2018 - 2022

TECHNICAL SKILLS

Hi, I am a junior React developer. I have been learning JavaScript and several of its tools for over 2 years now. I love programming, since childhood I always wanted to be an ethical hacker or programmer. Why me? Because I can use object-oriented programming (OOP) correctly, I have an algorithmic mindset. My objective as a JavaScript Developer is to apply my technical skills in IT, and to utilize my knowledge in web configuration and troubleshooting to fulfill the company's vision and mission. I aim to bring success to the company by designing specific IT solutions usually encountered in a JavaScript environment. I am a team player, open to adapt changes and problem solver. With this said, I can assure that I can be a useful talent of the company.

EXPERIENCE

APPLICATIONS DEVELOPER

PetsGo.az to help our pets
2022
